

## 1. Program Outcome (POs)

<b>Program Outcome (PO) Number</b>	<b>Program Outcome description</b>
<b>PO1</b>	Demonstrate competencies to provide quality care to the individuals and populations to optimize their movement, function, and quality of life.
<b>PO2</b>	Demonstrate competency to examine, assess, evaluate, treat and prescribe physiotherapeutic management of various disease, disorders and trauma conditions.
<b>PO3</b>	Promote health and implement strategies informed by best available research evidence to prevent and minimize impairments, activity limitations and participation restrictions caused due to various disorders.
<b>PO4</b>	Demonstrate the commitment to provide ethical care through high standards of professional practice.
<b>PO5</b>	Demonstrate abilities to communicate effectively to augment therapeutic and professional relationships.
<b>PO6</b>	Demonstrate competency to prescribe and comprehend various diagnostic imaging, electrophysiological, hematological and bio chemistry investigations for proper diagnosis, treatment or referral to other healthcare professionals.
<b>PO7</b>	Demonstrate competencies to integrate best available research evidence in to clinical decision making and practice.
<b>PO8</b>	Exhibits commitment towards continuous learning and scholarly activities.
<b>PO9</b>	Demonstrate abilities to work effectively with health care team in providing patient centered care.
<b>PO10</b>	Demonstrate abilities to manage self, time, resources and priorities to ensure safe, effective, and sustainable services.
<b>PO11</b>	Demonstrate competencies in quality assurance relevant to physiotherapy practice.
<b>PO12</b>	Demonstrate the ability to critically analyze and apply cultural competence, sensitivity, and individualized approaches to patient care, ensuring inclusivity and respect for diverse populations and health beliefs.

## **2. Program Specific Outcomes (PSOs)**

Upon completion of the physiotherapy program, the graduates will be able to:

### **PSO 1: Application of Clinical Knowledge**

- Apply clinical knowledge and skills effectively to assess and manage various health conditions across diverse patient populations, optimizing movement and functional outcomes.

### **PSO 2: Health and Well-being Enhancement**

- Implement appropriate therapeutic interventions to promote health, prevent impairments, and enhance overall well-being, adapting strategies to individual patient needs.

### **PSO 3: Patient-Centered Care**

- Provide patient-centered care by understanding and addressing unique patient challenges and goals, ensuring a holistic and individualized approach to physiotherapy treatment.

### **PSO 4: Collaborative Teamwork**

- Work effectively within multidisciplinary teams, contributing to collaborative patient care, and ensuring communication and coordination across different healthcare providers.

### **PSO 5: Research Integration**

- Integrate the best available research evidence into clinical practice to ensure the application of current, evidence-based treatment methods.
